A restored barren land in a tribal area. A holy mountain in reserve forest. A beautiful, peaceful organic demonstration farm in harmony with nature. Inspired by conscious living. Restoring the earth, restoring health...

Farm

The farm's activities include:

- Research and experimentation of the best cropping practices for the area, with seed bank, Indian cows and agnihotra. Takes growing risks so local people don't have to. Based on Vedic agriculture.
- Crops include indigenous varieties of rice; pulses, vegetables, fruits, timber, herbs.
- Provides employment for local community and works with them in managing the farm.
- Works in co-operation with other NGOs and farmers.
- Offers volunteering programmes for the dedicated and adventurous.
- We promote eco-friendly practices: We use construction materials that have a minimal footprint on the earth balanced with availability and cost. (Our structures combine natural materials and recycled steel and minimize the use of concrete). We utilise solar power and solar water pumping, We adopt waste management and minimization and water resource management practices.

Organic Lifestyle

As part of our organic and natural lifestyle we offer programmes, that can include the following:

- yoga, natural health and healing
- natural diet – organic food cookery classes and lunches
- natural farming/permaculture, agnihotra
- conscious living
- biodiversity awareness
- deep ecology, communion with nature
- volunteering on the farm

Camping in Comfort' offers an overnight 'safe' forest camping experience for the adventurous...

On site organic shop allows visitors to sample natural organic lifestyle products

By arrangement:
Day programmes on the farm. Min 10 persons.
Camping in Comfort stays
Farm or village lunches
Local village, mountain & forest tours, bird-watching

Green Rural Development

Our green rural development activities include the following:

- Developing a 2nd piece of land (3 acres) as an economically viable organic farming model. Starting with one main crop, aims to become Analogue Forest in the future
- Warli Adivasi Youth employment scheme - seeks to empower local Youth. Gives skills and work for countryside regeneration based jobs.
- Nursery for productive trees/shrubs – eg cashews, mangos, coconut, drumstick
- Trials and supply of organic produce (MOFCA)/ Kala Jeera rice
- Promotion of co-operatives and farmer training in organic principles

Visits by prior appointment only, subject to availability

Please follow our light footprint guidelines (see our website) to minimize local impact.
